

Peter Large Match Prep Report

Oxford FIDE Congress U2300 prep folder | Generated 29 May 2026

Player Identity

Player	IM Peter G Large / Large, Peter G
FIDE	400866, ENG, born 1956
ECF	114088H
Chess.com	Plimsol, high confidence; kept separate from OTB/broadcast PGNs

Prepared Assets

Folder	C:\Users\loxy\Documents\EnCroissant\Oxford FIDE Congress U2300 player games\Large, Peter G [cc Plimsol high]
Game files	776 one-game PGNs, named with game date and players
Database	C:\Users\loxy\AppData\Roaming\org.encroissant.app\db\oxford fide congress u2300 prep - Large, Peter G.db3
Database count	776 converted games verified in SQLite

Coverage Summary

Most recent actual game: 2026.05.10, Pall Mall FIDE Congress 8th-10th May 2026 - Open, Pasqualetto, Lorenzo - Large, Peter G, 0-1. **Note:** the matching Lichess broadcast round used a later 2026.05.13 broadcast header, so Chess-Results was used for the dated game file.

Source family	Result
Local Mega/reference database	538 games tagged after dedupe
Chess-Results FIDE ID 400866	242 source games checked/imported
Full Lichess broadcast database	76 monthly .pgn.zst files streamed; 185 matched games
Chessscope linked rounds	Primary slugs large-peter-g, peter-g-large, peter-large; 115 matched games
TWIC downloadable zips	61 matched games from checked TWIC packages
Lichess FIDE page direct rounds	23 round links checked; 20 matched games
BritBase direct PGNs	10 matched games checked; no extra unique games beyond merged set

Practical Prep Notes

- ? The prepared set is broad: older OTB/reference games plus recent broadcast and Chess-Results games are now in one Oxford prep opponent folder.
- ? The highest-value recent prep material is likely Pall Mall 2026, World Senior events, Golders Green rapidplays, Kingston invitationals, and recent Lichess broadcasts.

? Chess.com Plimsol is a high-confidence account match, but those online games were intentionally not mixed into the OTB/broadcast database.

? Some source sites list additional game counts behind gated or non-static downloads; those were treated as leads rather than imported source data.

Folder Convention Restored

This folder now follows the Oxford prep convention: one opponent folder containing individual dated PGN game files, matching .info sidecars, this PDF report, and a manifest. The large single PGN was removed from the visible Oxford Files folder.
