Strengths

- Comfortable in closed central structures where plans matter more than forcing theory.

- French and Nimzo-style games show a clear taste for fixed pawn chains and dark-square play.
- The recent London games show he is active again, so do not treat the older database years as stale only.

Weaknesses To Test

- The recent sample is small, so his current repertoire may be narrower than the full historical file suggests.
- He can be steered into King Indian and dynamic d-pawn positions where he must choose between repeating, clarifying, or taking space.
- If the position opens suddenly, the file gives less evidence that he wants a pure tactical race than a strategic squeeze.

Your Strategy

- Your saved Black prep with the King's Indian main line is well targeted: meet 1.d4 with a real plan, not just a setup.
- Use the ...h6/...Ng4 repetition idea as a practical test, but be ready to continue with ...Nbd7, ...Re8, and a timely ...f5 or ...c6 if he avoids the draw.
- With White, avoid drifting into his French/Nimzo comfort without a reason; choose a line where you know the pawn breaks and can keep play concrete.

Note in prep file: he goes into the mainline kings indian threatening a perpetual, as the higher rated player he will not take it

Prep collection notes

- Chessscope checked: player page advertised 7 broadcast games; per-game crawl was skipped because the full Lichess broadcast database was streamed and filtered by FIDE ID/name.
- ChessBites public game-page pass added 2 unique games from 14 fetched PGNs.
- Duplicate cleanup on 2026-06-19T21:09:44+00:00: removed 7 duplicate Files-side PGNs, rewrote the app-side source PGN to 45 unique games, and rebuilt the OTB database from 52 to 45 games.
- Duplicate cleanup on 2026-06-19T21:11:17+00:00: removed 0 duplicate Files-side PGNs, rewrote the app-side source PGN to 45 unique games, and rebuilt the OTB database from 45 to 45 games.

Method

Opening and result statistics were calculated from the deduped combined app-side OTB prep PGN. Original source bucket counts are kept only as collection provenance and can exceed the final unique game total. Stockfish sampling checked target-side moves from move 5 onward in recent and result-diverse OTB games. Chess.com account comments use the existing Southall opening-comparison audit and are not merged into the OTB statistics unless explicitly stated.
